### B. BGFIGHTER Preparation

(1) On the receipt of requirements from Headquarters, BGFIGHTER will take action to stockpile team equipment to be prepositioned in Europe at sites selected by BGFIGHTER.

(2) BGFIGHTER has levied on USEUCOM the necessary transportation requirements to secure the movement of the assets to Europe and at the appropriate time will secure a priority from USEUCOM for the movements. (See FALLEX messages for the problems involved in this).

(3) BGFIGHTER will select points of arrival for assets in Europe and will complete arrangements with the appropriate military command to permit entry of the assets.

(4) BGFIGHTER will select holding and marshalling areas in Europe and will complete arrangements with the appropriate military commands to provide housekeeping support.

(5) BGFIGHTER will levy on USEUCOM requirements for infiltration of the assets to the target areas and subsequent resupply missions.

(6) BGFIGHTER will levy on USAFE an appropriate requirement to determine the feasibility of securing flight profiles new to the UW target areas from forward airfields selected by USAFE.

(7) When activated, COMKUBARK FORCE EUROPE will assign the assets to the appropriate KF/EUR Area Commander.

(8) The appropriate KUBARK Force Commander, when activated will provide operational intelligence and staff assistance to the accompanying case officers and their assets.

3. BGFIGHTER will proceed with the tasks outlined above pending approval of Headquarters. Contact with USAFE concerning the air reception points to which the assets may be flown under various circumstances relative to pre-hostilities conditions and after the invocation of the CRA and/or an enemy attack will be explored first.

4. This concept was discussed in detail with ☐ ☐ it relates to the AEDEFOTS, during his recent visit to FTX HICKORY.
